## Faculty of Science and Technology (Engineering)

### **The arrangement of terms for FE, DSE and First Year ME Engineering (Fulltime) all Programs/Branches for Academic Year 2022-23**

#### **I. Academic and Examination Plan for First Year Students of FE and ME (First Year)**

Normally the Academic Year for First Year Engineering was commencing from 1<sup>st</sup> August of every year and ends by the end of May including winter break and semester examinations for Semester I and II. In general, the academic year of First Year Engineering usually of 10 months duration.

It is proposed to complete the academic year of First Year Engineering for academic year 2022-23 in 8 months without compromising with academics as the delayed admission process has reduced the AY by almost 4 months.

Following is the analogy to qualitatively address the academics even after compressing the term duration

In the current scheme of syllabus, C scheme, in general weekly contact hours are 25 and the available contact hours by considering 6 hours teaching per day and 6 days a week turns out to be 36 i.e. about 44% ( $36/25 = 1.44$ ) additional contact hours are available for use.

Proposed academic activities (specifically teaching) is for 13 weeks or about 77 working days ( $13 \times 6 = 78$ ). Considering 44% of additional contact hours, effective number of days comes to be 111 (which is more than mandatory 90 days of teaching).

If we add an additional 1 contact hour/subject and keep 6 instructional days/week, the content of the syllabus can be delivered in 10 to 11 weeks. Accordingly, the proposed semester dates for First Year Engineering are

**FE and ME (First Year) Semester I\***

**14<sup>th</sup> November 2022 to 1<sup>st</sup> March, 2023**

**FE and ME (First Year) Semester II**

**6<sup>th</sup> March 2023 to 23<sup>rd</sup> June, 2023**

\* The date of Commencement of academic activities as per the admission notification published by State Admission Regulating Authority of Maharashtra State is 4<sup>th</sup> November 2022. However the CAP III round ends on 12<sup>th</sup> Nov 2022.

**The Commencement of next Academic Year (i.e. 2023-24) for SE is 10<sup>th</sup> July 2023.**

There are six modules in each subject of FE Semester I and Semester II. The term is reduced 11 to 12 weeks but not at the loss of academics. However, it is proposed to teach all modules to the students but questions will not be asked from one of the modules in End Semester Examinations, which are as mentioned below table.

| Course code | Sem I<br>Name of course      | Module No |  | Course code | Sem II<br>Name of course                  | Module No |
|-------------|------------------------------|-----------|--|-------------|-------------------------------------------|-----------|
| FEC101      | Engineering Mathematics I    | VI        |  | FEC201      | Engineering Mathematics II                | VI        |
| FEC102      | Engineering Physics I        | VI        |  | FEC202      | Engineering Physics II                    | VI        |
| FEC103      | Engineering Chemistry I      | III       |  | FEC203      | Engineering Chemistry II                  | II        |
| FEC104      | Engineering Mechanics        | VI        |  | FEC204      | Engineering Graphics                      | VI        |
| FEC105      | Basic Electrical Engineering | IV        |  | FEC205      | C Programming                             | VI        |
| --          | --                           | --        |  | FEC206      | Professional Communication and Ethics – I | VI        |

## **II. Special Academic and Examination Plan for Direct Second Year Engineering Students of Academic Year 2022-23**

The lateral entry quota for Direct Second Year Engineering (DSE) admissions is 10% of the sanctioned intake of each program which comes out to be 6 students for a class of 60 intake. Hence it is not advisable and feasible to conduct their classes by defining a separate term of 90 days working for them.

Normally the date of commencement of Second Year Engineering classes for regular students in the University of Mumbai is between 5<sup>th</sup> to 10<sup>th</sup> of July every year.

Admission process for DSE students is generally completed in 1<sup>st</sup> / 2<sup>nd</sup> week of September every year and students start attending the classes accordingly along with the regular students.

All the students admitted through lateral entry had already studied approximately up to 50% content of the syllabus of Second Year Degree Engineering during their respective Three Years Diploma Programs. Considering this fact, each institute normally conducts additional classes for these students to bring them at par with the regular second year students. They are examined in the same examinations along with the regular students at the end of the semester III.

In the academic year 2022-23, the classes of Second Year Engineering for regular students have commenced on 18<sup>th</sup> July 2022 and the semester teaching ending on 22<sup>nd</sup> October, 2022. End semester examinations of Sem III will be completed by 3<sup>rd</sup> December 2022.

Considering the current situation, the admissions of DSE are delayed approximately by 4 months due to this these DSE students cannot study with the regular SE students in semester III. Under this circumstances, as a special case, these students shall be allowed to complete their Sem III and IV in an overlapped manner for some period to minimize the impact in terms of student's total period of graduation studies,

Considering the fact stated in point above i.e. These students have already studied approximately up to 50% content of the syllabus of Second Year Degree Engineering during their respective Three Years Diploma Programs, hence defining a separate term of 90 days is not required.

It is proposed that all the colleges have to conduct additional 50% classes in the month of November, December 2022 and January 2023 till Semester IV commences.

As the classes of Semester IV commence, DSE students can attend the Semester IV classes along with the regular students, however the additional classes for Semester III courses have to be scheduled and conducted in the subsequent months.

The examinations of Semester III for DSE students shall be conducted in February 2023.

These DSE students will appear their Semester IV examinations along with the regular students.

Thus the schedule for DSE special term for Semester III is 21<sup>st</sup> November, 2022 to 3<sup>rd</sup> February, 2023 (Including both the days). Semester IV along with the regular students.
