

TechVision Report

A technical event titled “**TechVision**” was organized by **Smt. Indira Gandhi College of Engineering, Navi Mumbai** for first-year engineering students. The event aimed to encourage creativity, innovation, and effective communication of technical ideas through project and poster presentations.

The event was conducted on **13th March 2026** at **2:00 PM** in the **Seminar Hall (Third Floor)**, with enthusiastic participation from first-year students across various departments. The event was coordinated by faculty members and supported by student organizers, ensuring its smooth and successful execution.

The event was organized with the following key objectives:

- To promote creativity and innovative thinking among students
- To provide a platform for presenting technical ideas and concepts
- To enhance communication and presentation skills
- To encourage teamwork and confidence among students

Participants presented their ideas through **projects and posters**, showcasing innovative solutions and creative concepts. Students used charts, models, and visual aids to effectively communicate their ideas.

The presentations were evaluated based on:

- Creativity and originality
- Clarity of concept
- Presentation skills
- Practical applicability

The event created an engaging and competitive atmosphere, motivating students to think critically and present their ideas confidently.

The TechVision event contributed significantly to student development:

1. Skill Development:

Students improved their presentation, communication, and problem-solving skills.

2. Technical Growth:

The event enhanced understanding of technical concepts and encouraged innovation and practical thinking.

The "TechVision" Project/Poster Presentation event proved to be a successful and enriching experience for first-year engineering students. It effectively fulfilled its objective of fostering technical skills, creativity, and innovation. The college looks forward to organizing more such technical events in the future.
